Acknowledgements

- I’d like to thank Ms.Mani and Ms.Smita firstly for helping me to create such an app.

- I’d also like to thank Mr.Ken for the various blocks he has provided for us.

About Me..

- My Name is Dev,
- I am 12 years old.
- I love coding and cricket.
- I do lots of web development.

About My Internship with Clevered..

- I have had a great time in this internship so far by it being very informative and fun.
- It is a great pleasure to have the ability to experience such an opportunity
- I have earned a couple rockstar badges throughout the session.

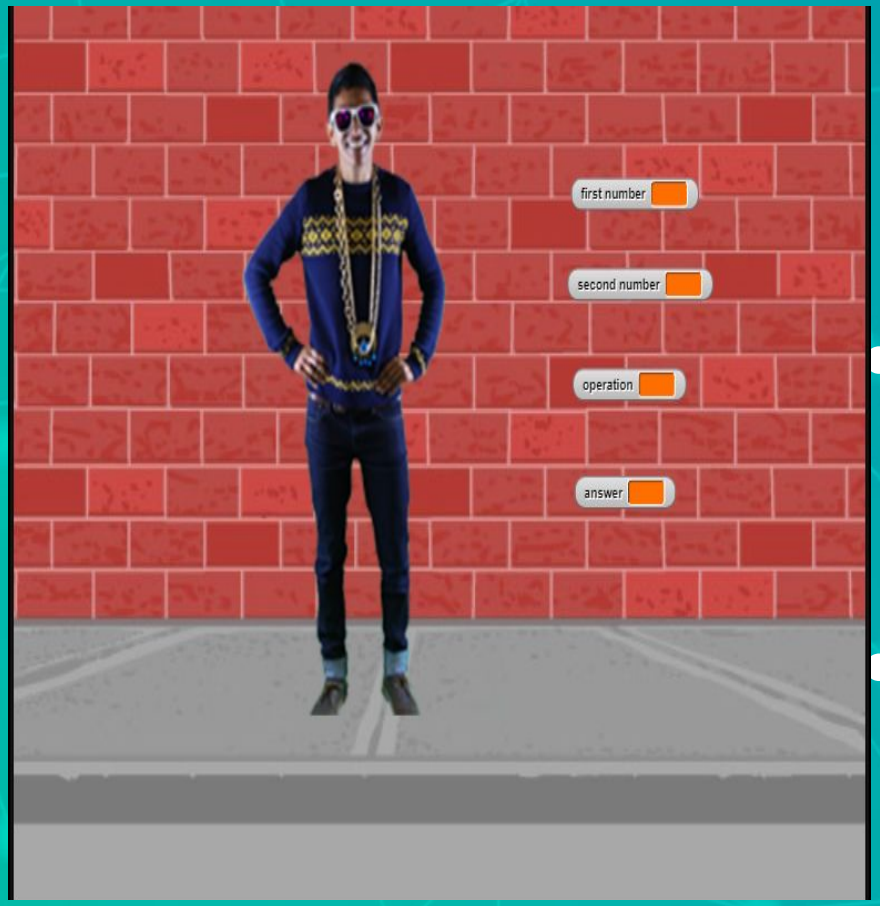
About App..

- It is basically an interactive calculator that takes in the equation via speech.
- It gives the answer through speech itself there is nothing on the screen apart from a man who is supposed to be me.
- It is dedicated to people with sight disabilities.

How do I use the App?

Main Screen

(This App has only one main screen and doesn't change)



- When the system asks then speak the first number , second number or operation accordingly.
- Just a thing to be careful for is don't speak a string only numbers.
- Speak Slowly as well

Contact Person

- Please reach out to Dev Sivakumar at dev.sivakumar.dev@gmail.com or contact at 0508710939

Thank you!
